# "MUSIC NEVER LOOKED SO GOOD."

"To say we have revolutionized the way people listen to music is a huge claim, but I do believe we are setting the standard when it comes to single-unit hi-fi stereos that integrate seamlessly into the home. Geneva was the first hi-fi company to embrace how people listen to digital music over a decade ago, when we released a serious hi-fi system with an iPod dock. Most other iPod docks and Bluetooth-enabled systems were just convenient gadgets at the time – no one was taking high-quality sound seriously.

We believe that serious sound quality should be available to everyone, whether streaming music or tuning into the radio. Unfortunately, many young people today don't know what it is to have an incredible listening experience when using a serious hi-fi system. We're here to change that."

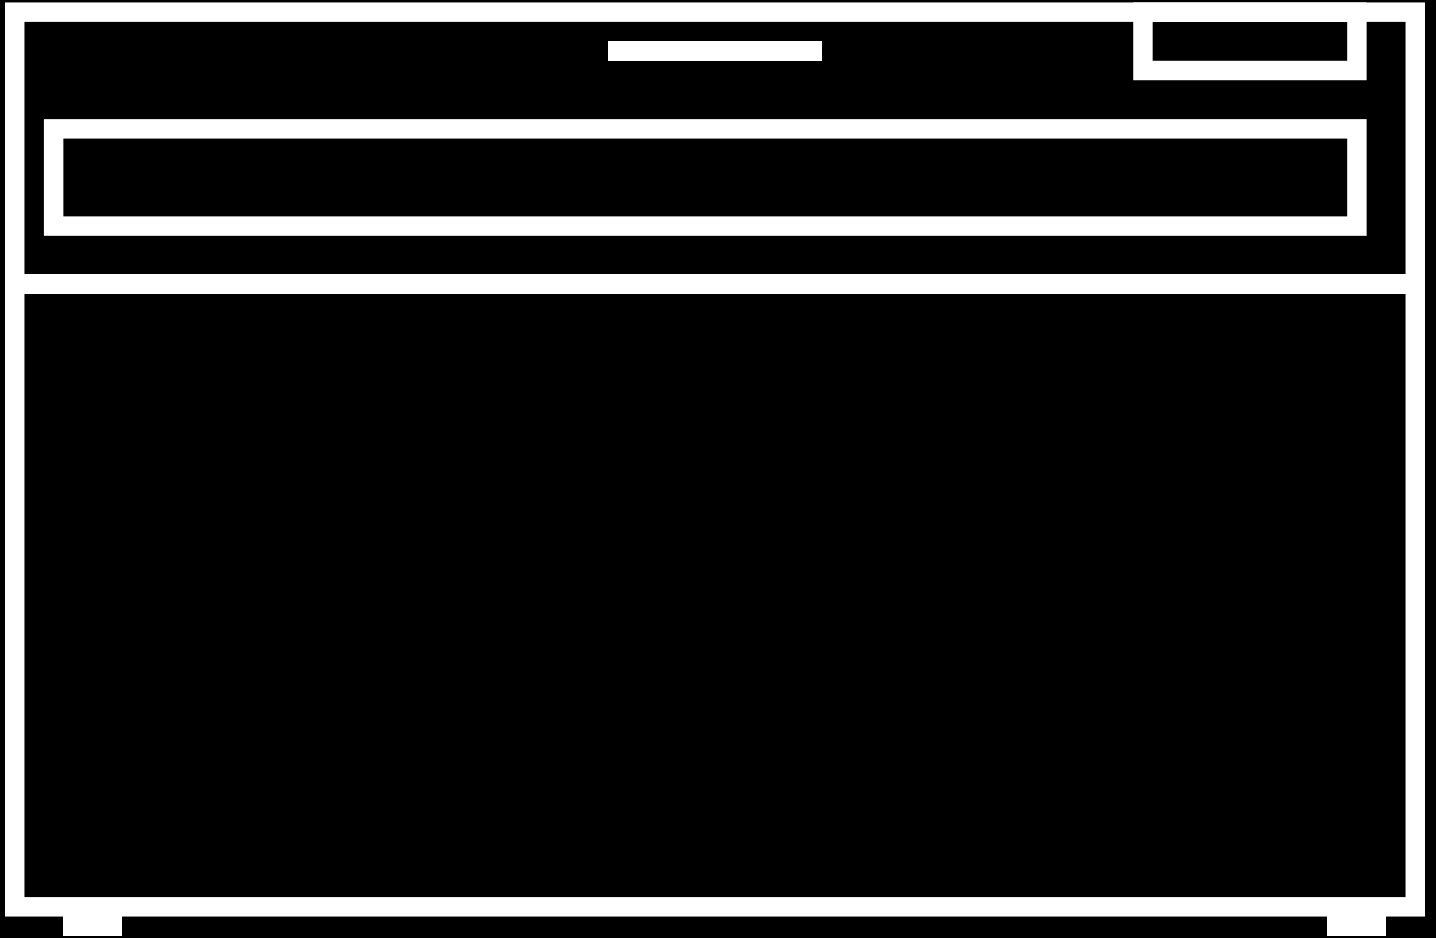

Jan-Erik Lundberg, CEO Geneva Lab

**A BOLD  
HISTORY, A  
BRIGHT  
FUTURE.**

# Touring Series

PORTABLE HI-FI

No adventure is complete without the right soundtrack. With the Touring Series, it's never sounded so good. Delivering superior Hi-Fi sound in a portable package, each Touring lets you take your favorite music with you wherever you go – from the garden, to the beach and beyond. Each speaker packs cutting-edge audio technology into an elegant-yet-rugged design that looks good everywhere. It's all precision-engineered like a Swiss watch. So whether you choose Bluetooth, DAB+ and FM radio, or the lot, one thing's for sure: you can take the party on the road and play your way.

# Touring / S+

## PORTABLE HANDCRAFTED FM/DAB+ RADIO WITH HIFI BLUETOOTH SPEAKER

**Worlds loudest small portable radio!**

The next generation Touring/S+ is a portable DAB+/FM radio and speaker that lets you enjoy your favorite tunes anywhere, anytime. Perfect for adventurous types, it delivers dramatically improved sound and plays up to 100dB! Up to 20 hours on a single charge, all in a compact Swiss-engineered design that can be picked up, packed up and played loud.

#SOUND QUALITY

## Small size, big sound.

Don't let its small size fool you: The Touring/S+ packs a huge punch when it comes to sound – it can play up to 100 dB. Designed and expertly tuned for radio, voices are clear and rich. Instruments are detailed and well-positioned, as if right there with you. It may be the smallest DAB+ radio on the market, but its balanced sound makes a huge impression.

#DESIGN

## ELEGANCE, ANYWHERE.

Wherever you put the Touring/S+ down, people will notice its timeless design. It has taken years of meticulous planning to pull this off. The beautifully finished aluminum top is adorned with laser-engraved touch buttons, each providing a direct connection with the music. The solid aluminum dial completes the feeling of quality. Everything is machined and engineered with the precision of a Swiss watch.

#SIMPLICITY

## REFRESHINGLY SIMPLE TO USE.

Hitting play and enjoying your day: this is what really matters. We've designed the Touring/S+ to be super simple to use, so you can relax and just listen. Quickly tune into DAB+ and FM radio with six presets, use Bluetooth with auto-connect to stream from your digital devices in seconds, or plug straight in with a 3.5 mm jack. The long-lasting and powerful rechargeable battery means you won't be hunting for a power socket every day either.

#COLORS

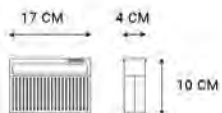

# A color for everyone.

The Touring S+ comes in a select number of colors. Choose from a Inky black, fresh white, vintage cognac and sumptuous red leather finish.

# Touring / L

Portable FM/DAB+ and Bluetooth Hi-Fi speaker

## A true Hi-Fi experience for any location.

This portable Bluetooth, DAB+, and FM speaker is made for those who want incredible sound while on the move. With its unrivaled Hi-Fi audio quality and a long-lasting 30 hours battery it's the ideal speaker for any adventure.

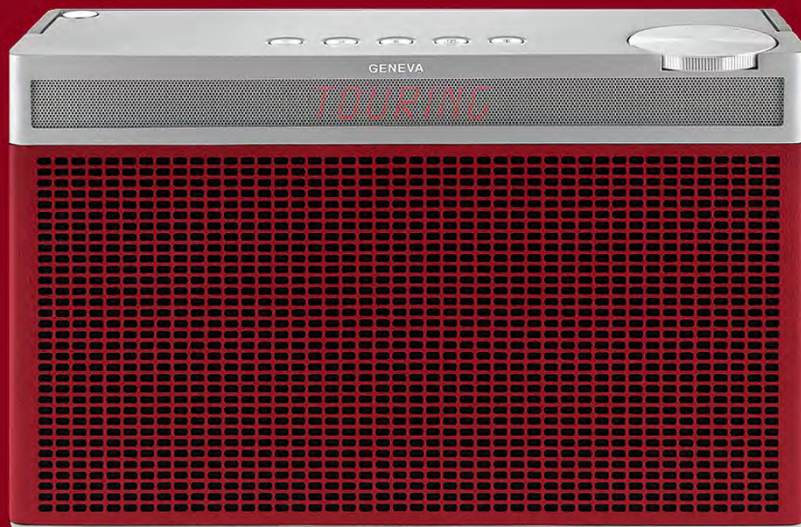

Whether in the garden or on the beach, this Swiss-engineered design not only sounds good, but it looks great too.

349 €

INTRODUCING  
THE **BIG BROTHER** OF  
GENEVA'S HIGHLY REGARDED  
TOURING/S WITH DAB+,  
FM RADIO AND BLUETOOTH SPEAKER,  
THE **TOURING/L**  
IS A POWERFUL  
PORTABLE  
HI-FI SYSTEM THAT'S  
MADE TO **MOVE.**

#SOUND QUALITY

**Superior sound, whatever the music.**

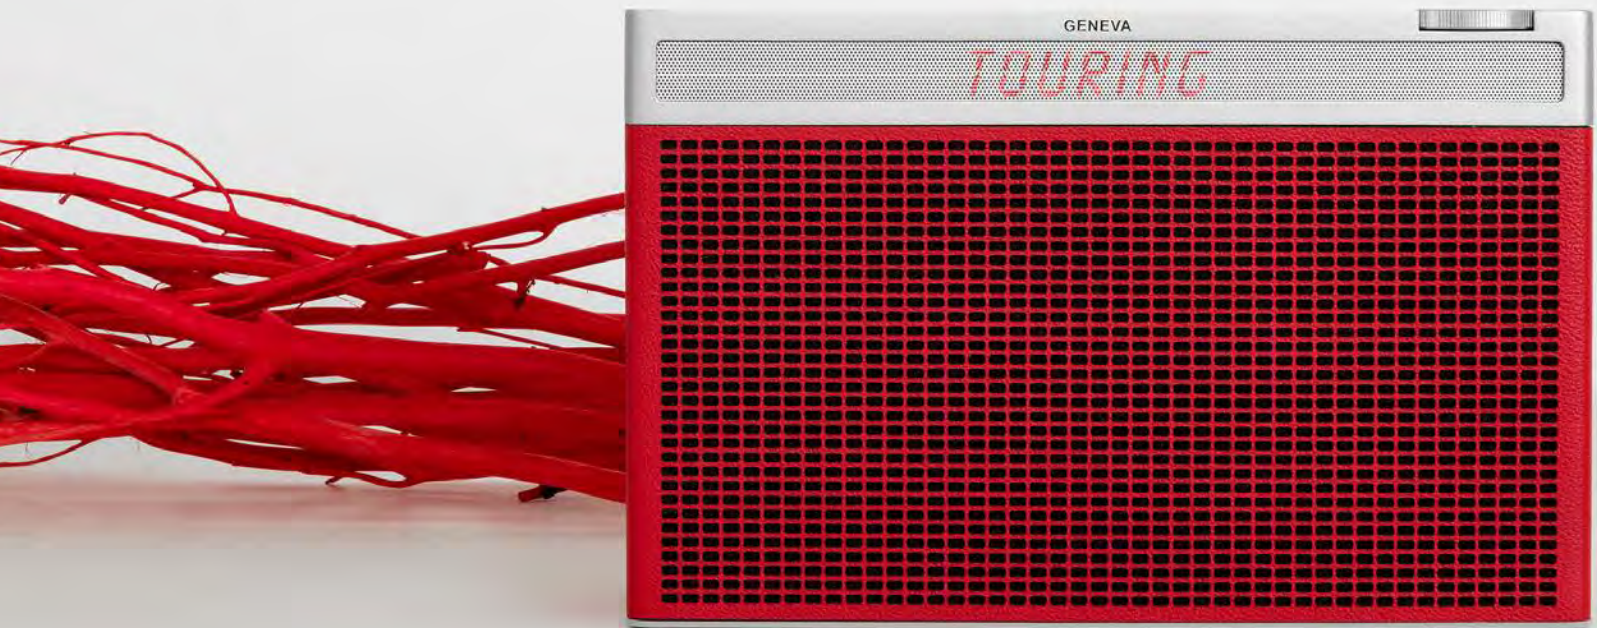

The Touring L delivers true Hi-Fi sound whatever is playing, from rap to classical. Instruments sound detailed and rich, with bass that delves right down to 60 Hz. Voices are crystal clear and smooth, making talk shows more immersive. It's all made possible by specially tuned drivers and class D amplifiers, which ensure consistent sound quality even at the highest volume.

#DESIGN

## Looks elegant, feels solid.

Inspired by the iconic portable radio, the Touring/L brings subtle lines and solid materials together. On the smooth aluminum top you'll find laser-engraved touch buttons, which give you a direct connection to your music. The aluminum continues through to the CNC-finished dial. At a total weight of 2.3 kg, you can feel the quality – everything is machined and engineered with Swiss precision. It's topped off with eco leather that is usually reserved for high-end cameras.

#SIMPLICITY

## Just connect and play.

We want you to spend all of your time listening to music, not figuring out buttons or controls. That's why we've made the Touring/L simple to use. Quickly tune into DAB+ and FM radio with 6 presets, use Bluetooth with auto-connect to stream from your digital devices in seconds, or just plug straight in with a 3.5 mm jack.

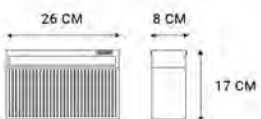

## #COLORS Timeless colors.

The Touring/L comes in a select number of colors.  
Choose from a black, white, cognac, or red leather finish.

**ACUSTICA**  
*Lounge Radio.*

HANDCRAFTED FM/DAB+ RADIO WITH BLUETOOTH AND LINE-IN

The Geneva Acustica/Lounge Radio combines a timeless design with the best HiFi sound. The experience is incredible: we drive the 3.5" woofer and  $\frac{3}{4}$ " tweeter with a very powerful class D amplifier. The combination shakes any space when played at high volume. And as it is meant for home use, we added an alarm clock so you can wake up to your favorite music every morning.

# ACUSTICA

## *Lounge Radio.*

HANDCRAFTED FM/DAB+ RADIO WITH BLUETOOTH AND LINE-IN

#SOUND QUALITY

Class-setting sound.

Just like you have come to expect from Geneva, true HiFi sound is in our genes – we spend a lot of time with our sound engineers to make sure that you get the best sound, whether streaming music or listening to the radio. Its deep bass starts down from 50 Hz., a mint midsection that makes voices crystal clear and smooth, and clear high notes. It's all made possible by specially tuned drivers and powerful class D amplifiers, which ensure consistent sound quality even at the highest volume.

#DESIGN

### A bold statement

Our mission at Geneva has always been to add simplicity to sophisticated electronic products. With the Geneva Acustica/Lounge Radio, this was no different as we set out to design the world's most elegant table top HiFi DAB+ /FM radio with Bluetooth. We have kept the looks clean and timeless.

The real wood cabinet is finished with an eco-leather clad, giving every speaker a unique exterior texture. The beautifully machined aluminum top provides contrast, and features laser-engraved buttons that feel solid and satisfying to touch.

ACCESSORIES	AC power cable			

Ivan Pedri is Geneva Lab's Chief Design Officer, this 39 year old alumni from Politecnico Milano creates all of our beautiful products. In this short piece I wanted to ask him some questions so we understand what drives him in his creations.

#### **Why did you decide to study design?**

I've always been interested in objects - the true fact is that design is not only what is so-called today, a synonym for a cool product, but it's more about a solution to a specific need. I think that the most important designs of our era are everyday objects like screwdrivers or the biro pen, there's genius behind them. After classical studies my interests went more and more focused on practical things, and studying design seemed to me the most logical answer.

#### **What brands do you admire for their designs?**

I love Braun, Brno Wega and Olivetti for their huge cultural influence on design, to Alessi for their willingness to bring design to everyday life since years by working with the most important designers of the past 50 years.

I also think about Apple when redefining the perceived manufacturing quality of a product and their endless research for perfection.

#### **How do you describe your approach to design?**

I always have the 10 principles of good design set by Dieter Rams in my mind, but when it comes to my everyday life I think that the most important unwritten law is to keep things simple, accurate, understandable, effective, emotional and beautiful. Technology had the power in the last years to swap our lives from analog to digital. I want to bring people back to a more intimate, analog feeling and immediate approach to the objects they own.

#### **What makes design, really good?**

When you don't need to read a manual, when you don't wonder how to do something, when the broken link between people and objects is fixed again, I think you made a good design. When you don't perceive an object as an alien entity compared to your five senses, you made a good design.

Ivan Pedri  
CHIEF DESIGN OFFICER

# Cinema+

A True HiFi sound stand for your TV

# Cinema+

## A new TV experience.

Sound is just as important as picture when watching TV. The Geneva Cinema+ is a true HiFi audio system that elevates your TV experience with powerful sound that can be integrated on an optional floor- or table stand.

#SOUND QUALITY

# Class-setting sound.

The Cinema+ delivers nothing less than powerful sound – all from a small profile. The backwards-firing subwoofer fills any room with incredible bass that makes every movie feel like a real-life event. The two front broadband speakers ensure crystal-clear detail, whether you're watching a talk-show or soccer match.

Wall-mount

Table stand

Floor stand

#DESIGN

# A bold statement.

Our mission at Geneva has always been to add simplicity to sophisticated electronic products. The Geneva Cinema+ is no different. We set out to design the world's most elegant TV stand with an integrated sound system: clean, timeless, and ready to match any contemporary interior. Choose between the wall-mount unit or opt for the table or floor stand to complete the look.

**#OPTIMIZED SOUND**

**MUSIC/VOICE/NEUTRAL/FILM**

At the press of a button, you can adjust the acoustics of the Geneva Cinema+ to match what you're watching. The volume of the subwoofer is adjustable in all sound modes.

#SIMPLICITY

## Simple to set up.

The Geneva Cinema+ is incredibly easy to set up. Just screw the brackets to your TV, wire everything up, plug it in and off you go. The Geneva Cinema+ lets you use optical connections, ARC connections or RCA, as well as Line-IN so integrate additional sources such as CD players, tuners and vinyl players.

The included remote control puts you in control of everything.

# GENEVA *DeCon* Hi-Fi Deconstructed

June 2020

# GENEVA <sup>DeCon</sup> Hi-Fi Deconstructed

GENEVA introduced the world's first real full stereo HiFi system with powerful digital amplifiers all in one box.

We embraced how people started to listen to music using new technology, that moved from CDs and vinyl to Bluetooth streaming and now WiFi.

To enjoy today's streaming services and multi room sound, GENEVA is glad to be again at the forefront to bring all of these new technologies together in a serious stereo HiFi system.

Introducing the GENEVA DeCon, the most powerful all in one box HiFi system that you can find on the market. Featuring, WiFi, Bluetooth, Internet radio, Apple Airplay 2 and Google Chromecast.
