607

Bowers & Wilkins

The 607 bookshelf loudspeaker in the new 600 Series from Bowers & Wilkins transforms your space with pristine sound. The smallest stereo loudspeaker in the range, it can still fill a room with true Bowers & Wilkins sound. Our award-winning Continuum cone technology, integrated for the first time in the 600 series, creates a pure and precise soundscape. Developed over an eight-year period and first featured on our flagship 800 Series Diamond models, the Continuum cone has been integrated into the sixth generation of the critically acclaimed 607. But the new 607 speaker isn't just about cleaner sound – it boasts a cleaner look, too. We removed grille pegs and replaced them with magnets, while moving the port to the rear cabinet. And now with matte finishes in black and white, they add a clean look to any room. Enjoy a beautiful sound session with the 607.
