INTEGRATED AMPLIFIER

RA-6000

The Diamond Series RA-6000 Integrated Amplifier celebrates Rotel's 60-Years of Japanese heritage. The RA-6000 supports a wide array of modern and legacy analog and digital sources delivering 350 watts of Class AB power into 4 ohms with exceptional acoustic detail and controlled rich, deep bass energy.

Digital inputs support 24-bit/192kHz audio streams. The asynchronous PC-USB input supports up to 32-bit/384kHz audio, decodes and renders MQA, and is fully certified Roon Tested. A Moving Magnet Phono stage is also included for vinyl fans.

Front panel controls, back-lit IR remote and 2-line display ensure intuitive operation.

Ethernet, RS232, 12V trigger and external remote input simplify integration with control systems.
